

## Savings Plan

If travel is an essential part of your life, or you just want to be able to have a yearly getaway, you need a strategy to save! The plan is to set aside a percentage of your income every month to build towards your goal. Pick a percentage that you are comfortable with. You can always adjust it up or down if needed!

Feel free to adjust if you are going to save for less than a year as well.

Use the worksheet below to determine your goals and track your savings. You can also track ways that you saved each month to see what works best for you or just to keep notes.
